SUMMARY

Entry-level Web Developer with 4 years of experience in the Back-End area. My skills might be limited, but my desire to learn new things and develop professionally are endless. Currently getting into Front-End Web Development.

EDUCATION

B.S. Computer Science

University of Washington

2013 - 2017 Seattle, WA

GPA

4.0 / 4.0

- Helped to 100% redesign the Computer Science Department's website
- Played in the football club for 2 years, won 2 silver medals
- Minored in Psychology and learned more about human behavior and communication

EXPERIENCE

Junior Web Developer

Bouchard

2017 - Ongoing Seattle, WA

Bouchard is a top web design firm developing websites for the private equity, energy, investment banking and hedge fund sectors.

- Working in a multicultural team of 100 developers and designers
- Built 10 static and dynamic websites, which scored 96% customer satisfaction
- Transformed 5 static web pages into dynamic web views by integrating PHP server code and MySQL databases
- Worked on the back-end development of the website jobsverige.se from start to finish, which was sold to Stepstone 12 months later for \$5M
- Used GIT and GitHub to distribute and back-up code
- Frequently utilized PHP, MongoDB, MySQL and Ruby

Internship - Web Developer and Designer

Starbucks

2016 - 2017 Seattle, WA

Starbucks is an American multinational chain of coffeehouses.

- Worked in a team of 10 web developers
- Implemented and maintained database stored procedures using Ruby and MySQL
- Completed 220h of database and back-end training

PERSONAL PROJECTS

Photography Portfolio

robert-mobley-photography.com

I spend almost all my free time taking photographs. In an attempt to turn my hobby into a lucrative side hustle I made myself a portfolio from scratch.

- Thanks to my portfolio I was able to make \$3000 from commercial photoshoots in a month
- In the process I was able to explore Front-End development
- Used JS, CSS3, HTML5 and Vue.js to give the website a dynamic look like slideshows, fade-ins, and fade-outs

TRAINING / COURSES

HTML, CSS and JS for Web Developers

Johns Hopkins University via Coursera, ongoing

Data structures

Took this elective 4-week course for most common data structures in programming during my 3rd year at college, Grade A

SKILLS

Front-End

JavaScript HTML CSS Vue.js

Back-End

PHP MongoDB Hibernate

MySQL SQL Server Ruby

Development

Eclipse GIT Scrum

STRENGTHS

Flexibility

Fine with working overtime or on weekends if the workload requires this

Communication

My psychology minor taught me how to effectively communicate with others

Quick learner

As seen from my internship, I am very eager to learn more about my craft

Synergy

Being an extrovert I like connecting, sharing ideas and working with others
