

Core Features of E2H Courier Service

1. Document Upload Portal

- Secure web and mobile interface for uploading electronic documents (PDF, DOCX, etc.).
- Multiple file formats supported.
- Drag-and-drop upload functionality.

2. Print Customization Options

- Paper size selection (A4, Letter, Legal, etc.).
- Color or black-and-white printing.
- Single-sided or double-sided printing.
- Binding, stapling, or envelope options.
- Cover page and watermarking options.

3. Address & Delivery Management

- Manual address input or bulk upload via CSV.
- Address book for frequent recipients.
- Integration with address validation services.
- Multi-location and multi-country delivery support.

4. Real-Time Order Tracking

- End-to-end tracking from upload to delivery.
- Tracking ID generated for every job.
- Notifications via email/SMS/app.

5. Security & Compliance

- Encrypted file upload and storage (AES-256/SFTP/HTTPS).
- Time-limited document storage with auto-delete.
- Access control and audit logs.
- GDPR, HIPAA, and data protection compliance options.

6. User Management (for Business Accounts)

- Multi-user support with role-based access.
- Approval workflows (e.g., manager approval before dispatch).
- Department-level usage tracking.

7. Print & Delivery Scheduling

- Option to select desired delivery date.
- Priority (same-day, next-day, standard) and express delivery.
- Scheduled recurring dispatches for subscriptions (e.g., weekly reports).

8. Billing & Payments

- Online payment gateway (credit card, wallet, bank transfer).
- Monthly invoicing for business accounts.
- Cost estimation tool before confirming the order.

9. Customer Support Integration

- Chatbot and live support for issue resolution.
- Ticketing system for queries or complaints.

- Knowledge base and FAQs.

10. Reports & Analytics

- Usage reports by user, department, or date.
 - Cost breakdown by document or region.
 - Delivery performance and SLA compliance.
-
